JEEVAKUMAR V

GitHub : Jeevakumar V⋄ jeevakumar7170@gmail.com ⋄ LinkedIn : Jeevakumar V⋄ Chennai, Tamilnadu

EDUCATION

St. Joseph's College of Engineering   *B.Tech in Information Technology*

Current CGPA: 8.89/10   Expected 2026

SKILLS

Web Technologies	HTML, CSS, JavaScript, React, MongoDB
Programming Languages	Java, C Programming
RPA Tools	Uipath Studio

CERTIFICATIONS

UiPath: Automation Developer Associate Training, UiPath Apps (2024)

Oracle: Java Fundamentals

MongoDB University: Introduction to MongoDB for Students

PROJECTS

Certificate Generation

- Automated the generation of personalized certificates using Excel data and UiPath, reducing manual effort and time in processing large batches.

- Implemented email automation to dispatch certificates to recipients, improving operational efficiency.

- Integrated dynamic data handling to personalize certificates based on individual details stored in Excel sheets.

Resume Automation

- Automated Resume Generation and email dispatch using UiPath, significantly reducing processing time by 75%.

- Integrated Excel data for dynamic content population, ensuring personalized and accurate outputs.

- Streamlined the workflow to handle bulk requests efficiently, enhancing scalability and user satisfaction.

Load Testing

- Developed a mobile-friendly portfolio showcasing projects with interactive features like modals, forms, and galleries.

- Utilized HTML, CSS, and JavaScript to create a seamless and visually appealing user interface.

- Integrated dynamic elements to improve engagement, such as interactive navigation and responsive design for various devices.

AI Job Matching Platform

- Designed and implemented an AI-powered system to align resumes with job descriptions using a pre-trained ML model.

- Automated processes like file uploads, form filling, and email confirmation using UiPath RPA.

- Enhanced recruitment efficiency by integrating data extraction, validation, and analytics capabilities.

HACKATHONS AND COMPETIOTIONS

Flipkart Grid 6.0: Collaborated on innovative industry solutions

Smart India Hackathon 2024: Developed resume synchronization project

Gujarat Hackathon: Participated in innovative problem-solving
